The Jacksons' 1978's blockbuster release *Destiny* was their most successful album to date, spawning the irresistible Top Ten chart smash "Shake Your Body (Down To The Ground)" and the infectious "Blame It On The Boogie." The album's title was certainly no accident. Under their new agreement with CBS's Epic label, the legendary family combo were now free to produce themselves and write their own material, and with the release of *Destiny* they seized the opportunity to become a self-contained hit-making record machine like the world of soul had never seen before. For the Jacksons, things were coming up nothing but roses.

The Jacksons went from one roaring success to another when they released their magical, self-produced album, *Triumph*, in 1980. Their second consecutive multi-platinum-seller, *Triumph* generated massive chart hits "Lovely One," "Can You Feel It," and "This Place Hotel," followed by a wall-to-wall, sold-out national tour. It was the Jacksons' first album to reach the number one slot in the national R&B charts since 1976, and consolidated their national appeal as the first black artists to appeal equally to both black and white teenage audiences, worldwide. *Triumph* was the album that eloquently summed up the group's iconic status in the ever-shifting sands of pop music.
